**Patricia Owen, American Association of School Librarians : A 21st-Century Approach to School Librarian Evaluation** before purchasing it in order to gage whether or not it would be worth my time, and all praised A 21st-Century Approach to School Librarian Evaluation:

0 of 0 people found the following review helpful. Digital edition is a mess.By MimiThe digital edition of this book is a mess. There are many formatting errors, repeated text, and extra characters within text. There are only a handful of navigational links and the ones that are there do not work properly. There are huge gaps between words and letters. Lines of text are inconsistent; at times a line is made up of one or two words. All of these errors make it very difficult to read the book's content.0 of 0 people found the following review helpful. Kindle version is a nightmare to useBy That LibrarianThe Kindle version of this book is IMPOSSIBLY difficult to navigate. It's a large PDF, so none of the links in the table of contents work, and it's challenging to try and understand the information based on how it's formatted. I honestly expected better from the AASL.0 of 0 people found the following review helpful. Five StarsBy

DonnaStill reading through it

A 21st-Century Approach to School Librarian Evaluation uses the AASL Empowering Learners program guidelines as a basis for a school librarian evaluation rubric one that can be adapted or duplicated by school librarians and shared with school administrators. Workbook style prompts walk school librarians through suggested readings, action tips, and evidence collection to help gauge their current levels of achievement, set goals for progress, and form plans for future professional development. This book provides school librarians an opportunity to engage in rigorous self-evaluation and to shape school administrator evaluations. Librarians who proceed step-by-step through A 21st-Century Approach to School Librarian Evaluation will emerge prepared for their annual performance evaluation.
