I bought it for the SAA Certified Archivist's exam and although I didn't end up taking the test. I am glad I bought this book.1 of 1 people found the following review helpful. A Modern Archives ReaderBy DavidThis book is a good basic overview of archival issues through the eyes of respected archival thinkers. It is pithy but not cumbersome. It is a good book for archivists to keep on their shelf of standard works for review.1 of 2 people found the following review helpful. Five StarsBy Brian ReffordExcellent resource, timeless and authoritative
