From Marquez Reiter Rosina : A Sociolinguistics of Diaspora: Latino Practices, Identities, and Ideologies (Routledge Critical Studies in Multilingualism) before purchasing it in order to gage whether or not it would be

worth my time, and all praised *A Sociolinguistics of Diaspora: Latino Practices, Identities, and Ideologies* (Routledge Critical Studies in Multilingualism):

This volume brings together scholars in sociolinguistics and the sociology of new media and mobile technologies who are working on different social and communicative aspects of the Latino diaspora. There is new interest in the ways in which migrants negotiate and renegotiate identities through their continued interactions with their own culture back home, in the host country, in similar diaspora elsewhere, and with the various "new" cultures of the receiving country. This collection focuses on two broad political and social contexts: the established Latino communities in urban settings in North America and newer Latin American communities in Europe and the Middle East. It explores the role of migration/diaspora in transforming linguistic practices, ideologies, and identities.

"A welcome contribution to the emerging body of work in sociolinguistics more generally and the sociolinguistics of Latino cultures more specifically." -- Bernadette ORourke, Heriot-Watt University, UK "This volume is both an excellent contributor to theorizing the sociolinguistics of globalization, and also extends upon Blommaert's framework by exploring the role of new media within these interactions" -- Vineeta Chand, University of Essex, UK "As international migration becomes an increasingly prominent feature of societies the world over, it is clear that innovation in language education and related fields will be greatly enhanced by serious attention to diaspora as a legitimate construct and space for sociolinguistic inquiry, and the studies that constitute this volume provide a thought-provoking starting point." -- Ava Becker-Zayas, University of British Columbia, Canada "The text as a whole is more than just a collection of studies on Latino diaspora across the globe. It is a reconceptualization of language in society, illuminating how ideology and identity are always embedded in language practices. The studies in this volume have far-reaching implications and are essential for both novice and experienced researchers alike." -- *Journal of Linguistic Anthropology*

About the Author Rosina Mrquez Reiter is Reader in the School of English and Languages at the University of Surrey, UK. Luisa Martn Rojo is Professor of Linguistics at the Universidad Autnoma, Spain.
