From University of Illinois Press : Asian Americans in Dixie: Race and Migration in the South (Asian American Experience) before purchasing it in order to gage whether or not it would be worth my time, and all praised Asian Americans in Dixie: Race and Migration in the South (Asian American Experience):

0 of 0 people found the following review helpful. Five StarsBy Linda MartinezArrived on time and in great condition. Thank you!

Extending the understanding of race and ethnicity in the South beyond the prism of black-white relations, this interdisciplinary collection explores the growth, impact, and significance of rapidly growing Asian American populations in the American South. Avoiding the usual focus on the East and West Coasts, several essays attend to the nuanced ways in which Asian Americans negotiate the dominant black and white racial binary, while others provoke readers to reconsider the supposed cultural isolation of the region, reintroducing the South within a historical web of global networks across the Caribbean, Pacific, and Atlantic.

"A timely and necessary contribution to multiple fields of inquiry, including southern history and studies, immigration history, urban history, foreign relations history, U.S. history writ large, religious studies, American studies, ethnic studies, and Asian American studies. . . . Fresh and forward-looking, *Asian Americans in Dixie* should serve as a launching pad for new directions in the histories of race, migration, and the U.S. South."--*The Journal of Southern History*
