Inazo Nitobe : Bushido: The Soul of Japan before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bushido: The Soul of Japan:

"Bushido" is the Japanese feudal equivalent of chivalry. Literally it may be translated, "Military Knights' Ways" or "Precepts of Knighthood." It embodies the maxims of educational training brought to bear on the Samurai, or warrior class of Japan, the class that throughout the nation's feudal age, which ended on fifty years ago, set the standard to the whole people in manners, ideals of character, and mental and moral codes of obligation. "Bushido" was an organic growth of centuries of military careers. It is unwritten, like the English Constitution, yet out of it has grown the Japan of today.
