Lois Mai Chan : Cataloging and Classification : An Introduction before purchasing it in order to gage whether or not it would be worth my time, and all praised Cataloging and Classification : An Introduction:

8 of 8 people found the following review helpful. Required Cataloging TextBy BabsieAlthough this is an introductory-level text, it seems to be aimed at people who already have a certain amount of knowledge and experience in cataloging and classification. I am fortunate that I had a little knowledge beforehand; otherwise I would have been a bit lost. The book is packed with useful information, and although it is not the most exciting reading in the world, it is good as textbooks go.0 of 0 people found the following review helpful. Great for Media Specialist/LibrariansBy Kindle CustomerThis I used in one of my college classes while working on my MLS. It gave me a greater understanding in cataloging and how to classify all books. I would definately recommend this if you are going into Cataloging books.0 of 0 people found the following review helpful. I will rate this excellent..By BenjHow do you rate a purchased that will arrive even earlier than the ETA... on the scale of ten, I will rate this excellent... because it's beyond 10, baby.

Contains detailed descriptions and codes used in the process of book cataloguing. A good introductory source to the field. Slight tanning around the outer edges of pages. Minor chipping on the heel of the spine and corners. With the pencil signature of Gavin Bridson. xvi, ii , 397+ 1 pages. paper-covered boards, dust jacket. 8vo..
