**Christian Joppke : Citizenship and Immigration** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Citizenship and Immigration:

This incisive book provides a succinct overview of the new academic field of citizenship and immigration, as well as presenting a fresh and original argument about changing citizenship in our contemporary human rights era. Instead of being nationally resilient or in postnational decline, citizenship in Western states has continued to evolve, converging on a liberal model of inclusive citizenship with diminished rights implications and increasingly universalistic

identities. This convergence is demonstrated through a sustained comparison of developments in North America, Western Europe and Australia. Topics covered in the book include: recent trends in nationality laws; what ethnic diversity does to the welfare state; the decline of multiculturalism accompanied by the continuing rise of antidiscrimination policies; and the new state campaigns to upgrade citizenship in the post-2001 period. Sophisticated and informative, and written in a lively and accessible style, this book will appeal to upper-level students and scholars in sociology, political science, and immigration and citizenship studies.

"Navigates the terrain of citizenship and immigration in Europe, North America and Australasia with great authority and skill. I can highly recommend this book." Jonathan Seglow, Political Studies "A densely written but eminently readable book, chock full of incisive critiques, fresh insights and new questions about the recent evolution of a core concept of liberal democracy." Rainer Baubock, European Political Science "By delving into early political thought, philosophy and societal norms, Joppke portrays the quest by political power to invent a social norm which constitutes a semblance of social order, therefore attempting to establish the interwoven concepts of rights, status and identity." Red Metaphor "This is a superb piece of scholarship. Joppke manages to cover an extraordinary range of theoretical questions and empirical findings within a very compact and readable book. He coherently synthesizes and cogently brings together an array of different literatures that have often remained separate from one another. In doing so, he provides a "state of the art" overview and analysis of the topics of citizenship and immigration." Marc Morj Howard, Georgetown University "Citizenship and Immigration is an outstanding analysis of one of the most dramatic developments in contemporary world, especially in Europe - namely the impact of immigration on the reconstitution of citizenship and of discussions thereof. It is an essential reading for anybody interested in the contemporary scene." S.N. Eisenstadt, The Van Leer Jerusalem Institute "Few scholars know the citizenship and immigration literature like Christian Joppke. In this tour-de-force, Joppke moves nimbly from social theory to current policy developments in Europe, North America and Australia. He paints a nuanced picture of the liberal evolution of citizenship, remaining attentive to governments' recent exclusionary moves. A must-read!" Irene Bloemraad, University of California, Berkeley

From the Back Cover "This is a superb piece of scholarship. Joppke manages to cover an extraordinary range of theoretical questions and empirical findings within a very compact and readable book. He coherently synthesizes and cogently brings together an array of different literatures that have often remained separate from one another. In doing so, he provides a state of the art' overview and analysis of the topics of citizenship and immigration." Marc Morj Howard, Georgetown University "Citizenship and Immigration is an outstanding analysis of one of the most dramatic developments in the contemporary world, especially in Europe - namely the impact of immigration on the reconstitution of citizenship and of discussions thereof. It is essential reading for anybody interested in the contemporary scene." S. N. Eisenstadt, Van Leer Jerusalem Institute "Few scholars know the citizenship and immigration literature like Christian Joppke.
