Useful for newcomers to the children's library staff as well as longtime children's librarians, the second edition of this popular handbook provides easy-to-follow instructions to make innovations in children's library materials work for you. Covers new technologies and Common Core standards in addition to traditional areas of children's services Allows any library staff to comfortably assist children searching for reference and homework help, offer effective readers' advisory assistance, and perform basic promotion of books to children Supplies information that is useful for

newcomers to the children's library staff and those who substitute at the children's desk as well as longtime children's librarians or experienced staff taking on new responsibilities

Penny Peck's *Crash Course in Children's Services* offers guidance on the whole range of service to children, from collection development to crowd control. Though the book is geared toward small libraries, there are tips that can be put to use in larger settings as well. -American Libraries

Aimed at those utterly new to the field of children's services, this nuts-and-bolts guide by a San Leandro PL, CA, senior youth services librarian covers reference, readers' advisory, homework help, book selection, story time, and other types of programming and ongoing issues in children's services, such as latchkey children, behavior problems, and computer and Internet access....[p]araprofessionals and others new to this field will find this book to be a valuable starting point for achieving competency in the field. -Library Journal

Peck offers those working in small public libraries a quick overview of services for children. Seven chapters focus on the practical aspects of (for example) homework help, readers' advisory, storytime, and programming. The final chapter deals with special issues such as "latchkey" children, non-English speakers, and Internet access. -Reference Research Book News
