**Maja umer : National Bibliographies in the Digital Age: Guidance and New Directions (Ifla Series on Bibliographic Control)** before purchasing it in order to gage whether or not it would be worth my time, and all praised National Bibliographies in the Digital Age: Guidance and New Directions (Ifla Series on Bibliographic Control):

The changes brought about by the World Wide Web and the explosion of electronic media have called into question many of the assumptions on which national bibliographies have been founded. The need was growing of a route map to navigate through uncharted territories. After a preparation period of several years, IFLA's Bibliography Section endorsed this large set of guidelines. They seek to help national bibliographic agencies improve their bibliographic services. Many examples and references are included.

About the Author Maja Umer is the Chair of the Working Group that drafted these Guidelines. She works with the University of Ljubljana, Slovenia. "
