Cynthia Houston : Organizing Information in School Libraries: Basic Principles and New Rules before purchasing it in order to gage whether or not it would be worth my time, and all praised Organizing Information in School Libraries: Basic Principles and New Rules:

Covering both classification and cataloging principles as well as procedures relevant to school libraries, this book provides a teaching kit for a course on this critical subject that includes content and practice exercises. Answers essential questions such as "What is the nature of the bibliographic universe in an electronic information age?" and

"What is the relationship of my school library's catalog to the bibliographic universe?" Addresses RDA standards as well as cataloging and classification strategies for school library programs Features practice exercises that readers can apply immediately for in-class use

About the Author Cynthia Houston is a professor in the Master of Science program in library media education at Western Kentucky University, Bowling Green, KY.
