3 of 3 people found the following review helpful. A voice for immigrantsBy Bookshelf AnnieWhat a wonderful and inspiring book. It's giving our immigrants a voice, to express with melancholy their sadness at leaving their countries and people they know and love and also to celebrate their new life. It teaches us what they are going through and how we can help. I'm hoping this project is multiplied all over our country. It makes the rest of us understand how difficult it was for our ancestors coming here, to what was a strange and confusing country.2 of 2 people found the following review helpful. Food, memories, recipes and poetry.By QuinnCreativeA wonderful book (even if you are not sure you enjoy poetry) written by non-professional poets on food from the country they left behind. There are also stories (poems) about tradition and what it feels like to be in a new place and make a new life. Well over half the book is also

filled with memories and recipes from the writers' homeland. An excellent book for an omnivore mind!1 of 1 people found the following review helpful. You'll Want This BookBy CustomerSuch a special book, combining teen poets who have immigrated to Washington from many countries with immigrant adults who share the foods, flavors, and recipes of their homelands, all with commentary that helps each reader understand what it means to miss your home. We are so glad they're enriching our country with their talents and love.

Subject of a recent story on NPR's Here and Now, *Our Table of Memories* is an amazing book that pairs powerful, heartfelt poetry about their native foods by high school students who are refugees from conflict zones (part of a program *Stories of Arrival: Youth Voices Poetry Project*), with recipes by immigrant women working with Project Feast. This book is a must for schools, teachers, lovers of poetry and food. It will touch your heart. *Our Table of Memories* invites readers to consider the spicy, delicious connections between food, poetry and stories. The food-themed poetry and recipes are part of an exciting first-time collaboration between Project Feast and the *Stories of Arrival: Youth Voices Poetry Project*. Both serve to help refugees and immigrants share their strengths and experiences, and by doing so, literally and metaphorically nourish the larger community. This book is an ideal resource for teachers, writers, food advocates, counselors and others who support young people and cross-cultural understandings.
