Doris Marie Provine, Monica W. Varsanyi, Paul G. Lewis, Scott H. Decker : Policing Immigrants: Local Law Enforcement on the Front Lines (Chicago Series in Law and Society) before purchasing it in order to gage whether or not it would be worth my time, and all praised Policing Immigrants: Local Law Enforcement on the Front Lines (Chicago Series in Law and Society):

0 of 0 people found the following review helpful. Highly recommended!By CFAAn extremely informative and well-written book detailing the issues of the "patchwork" of immigration federalism and those that deal with it in on the front lines. Highly recommended!

The United States deported nearly two million illegal immigrants during the first five years of the Obama presidency more than during any previous administration. President Obama stands accused by activists of being deporter in chief. Yet despite efforts to rebuild what many see as a broken system, the president has not yet been able to convince Congress to pass new immigration legislation, and his record remains rooted in a political landscape that was created long before his election. Deportation numbers have actually been on the rise since 1996, when two federal statutes sought to delegate a portion of the responsibilities for immigration enforcement to local authorities. *Policing Immigrants* traces the transition of immigration enforcement from a traditionally federal power exercised primarily near the US borders to a patchwork system of local policing that extends throughout the countrys interior. Since federal authorities set local law enforcement to the task of bringing suspected illegal immigrants to the federal governments attention, local responses have varied. While some localities have resisted the work, others have aggressively sought out unauthorized immigrants, often seeking to further their own objectives by putting their own stamp on immigration policing. Tellingly, how a community responds can best be predicted not by conditions like crime rates or the state of the local economy but rather by the level of conservatism among local voters. What has resulted, the authors argue, is a system that is neither just nor effective one that threatens the core crime-fighting mission of policing by promoting racial profiling, creating fear in immigrant communities, and undermining the critical community-based function of local policing.

Policing Immigrants is one of the few books to comprehensively analyze the devolution of immigration enforcement into the patchwork of policies and practices that defines contemporary immigration policy in the United States. Drawing on a large cache of original data, the authors trace in careful detail the historical development of the variations across local jurisdictions and provide clear and in-depth analysis of how devolution is proceeding, including the challenges and implications. The book makes an important contribution.
