Jane Beaumont, Joseph P. Cox : Retrospective Conversion: A Practical Guide for Libraries (Supplements to Computers in Libraries) before purchasing it in order to gage whether or not it would be worth my time, and all praised Retrospective Conversion: A Practical Guide for Libraries (Supplements to Computers in Libraries):

This is a guide to converting a card catalogue to machine readable form for use with an automated library system, a process known as retrospective conversion or RECON. This provides the information needed for organizing a RECON project, creating or obtaining appropriate machine readable records and establishing on-going procedures for online cataloguing.
