was hoping it included pinyin translations since I'm still new to the characters but I'm really glad I purchased this.

Based on the movie Shower, this book is in the Audio-Visual-Oral Chinese Series. It selects 6 excerpts from the movie, adds detailed annotation (of new words, grammatical points) and provides diversified exercises based on the audio-visual materials. The accompanying DVD contains 2 versions of the movie: a complete version to be watched for appreciation and a reedited version for use in the classroom.
