**Karl Rahner : Spirit in the World** before purchasing it in order to gage whether or not it would be worth my time, and all praised Spirit in the World:

4 of 10 people found the following review helpful. Spirit in the WorldBy 115 manthis is an outstanding book which reviews the the concepts of the spitit in the world While this may seem like a duplicity of the title of the book, the depth of this concept of God's Spirit as a gift to us, in this world as a creative force to guide us, isconcept of great depth. Rahner explores the vastness of this topic in a readable and understandable way.

One of Rahner's classic studies, this volume employs the German Jesuit theologian's deep understanding of the philosophy of Thomas Aquinas to explore the relationship between the spirit and matter, metaphysical and concrete realities.
