Not Available : Standards for the 21st-Century Learner in Action before purchasing it in order to gage whether or not it would be worth my time, and all praised Standards for the 21st-Century Learner in Action:

1 of 1 people found the following review helpful. UGHBy CustomerSuch a waste of money. Worthless. I want my money back. Just one more way they can get money out of students.0 of 0 people found the following review helpful. Rent ItBy Cinnamini875Rented this versus buying. Has good info but you will definitely save if you rent.4 of 6 people found the following review helpful. BoringBy Heather D. JacksonYeah....what to say. If you know what a computer is, how to use it, and if you know what century we are in, then this book is really not for you. I would say it is more for the pre-service librarians that are clueless when it comes to 21st century learning and its best practices.

Takes a look at the strands of the Standards for the 21st-Century Learner and the indicators within those strands. This practical book answers such critical questions as how do the strands - the skills, dispositions in action, responsibilities, and self-assessment strategies - relate to one another?
