have to be watched very closely. They clearly have a hidden agenda. The problem in America is that the majority of Americans know little or nothing about Muslims or more importantly their bible, the Qur'an, which says that all infidels must be exterminated. That means anyone that is not Muslim or is not a follower of the Islamic Faith. Muslims believe in world domination and there are already over 1.6 billion of them on this planet. 76 of 80 people found the following review helpful. MUST READ! By Bill FHohmann has tied together so many loose ends in the violent events of the last few years. The Big Picture is one every American should consider. Liberals and conservatives alike are being used to divide and break down the fabric of Western culture. As goes Europe, so go we if we don't recognize what's happening. 9 of 9 people found the following review helpful. Five Stars By George S. Niebel Every American should read this!!!!

Americans are shocked by ongoing news reports chronicling growing chaos in Europe, where massive Muslim migration is wreaking havoc on the continent including horrendous acts of mass terrorism, an epidemic of rape and sexual assault against European women, and large, jihadist-rich enclaves where even police are hesitant to enter. Yet, few realize that America is heading down the same suicidal path. As veteran investigative journalist Leo Hohmann documents in *Stealth Invasion: Muslim Conquest through Immigration and Resettlement Jihad* an international network of mostly Muslim Brotherhood-linked activists has been building its ranks within the United States for more than three decades, aided by a U.S. immigration system seemingly obsessed with welcoming as many unassimilable migrants with anti-Western values as possible. As a result, largely secret plans for major population changes in hundreds of U.S. cities and towns are already being implemented. As *Stealth Invasion* reveals, the Muslim Brotherhood has a well-defined strategy for conquering America, not necessarily with violent jihadist attacks although we should expect those to increase but through more subtle means collectively called "civilization jihad." According to the Brotherhood's own documents seized by the FBI, "civilization jihad" involves infiltrating and conquering Western democracies from within. Very simply, civilization jihad calls for changing a nation by changing its people and its values gradually, over time. Meanwhile, the world is undergoing a historic shift of populations out of the Middle East and Africa, and into Europe, Canada and the United States. *Stealth Invasion* connects the dots between the problems of growing violence and unrest that have plagued Europe and what is now unfolding across America and blows the lid off a corrupt, fraudulent program that has been secretly dumping Third World refugees, many of them radical, on American cities for three decades. Readers will meet the people and groups behind this shadowy resettlement network, which starts at the United Nations and includes the White House, the U.S. State Department, some surprising church groups, and corporate honchos involved in everything from investment banking and meatpacking, to Florida vacations and yogurt manufacturing. In *Stealth Invasion*, Leo Hohmann reveals how Congress has turned a blind eye to the program since President Jimmy Carter signed into law the Refugee Act of 1980, allowing the United Nations not American officials to select the refugees sent to our cities. As a result, those selected are increasingly coming from hotbeds of Sunni radicalism like Syria, Iraq, and Somalia while a growing population of persecuted Christians are left behind. The government uses a network of private agencies, most with churchy names tied to Lutherans, Catholics, Episcopalians, Jews and even evangelicals, to do the resettlement work, but the public is shut out of the process from beginning to end. No public hearings, no public notices in the local newspaper asking for their input. Americans have been kept largely in the dark about the radical plans to permanently transform their nation. Until now. In *Stealth Invasion*, Leo Hohmann shows that the breakdown is no coincidence and it hasn't manifested overnight. It's been brewing since the 1980s, but is now reaching the point where it is about to metastasize and overtake us all unless it is stopped now.

Leo Hohmann's brilliantly researched book is well worth your time to read, study, and pass on to like-minded Americans. It isn't an accident that our communities are experiencing increased crime, acts of terrorism, and a drag on economic growth. It is by design. Hohmann unfolds the entire story for us, layer by tragic layer. I've seen the truth of the negative consequences of third-world resettlement in my home state, and I witnessed the shocking inattention to these consequences by many in positions of power in Washington. Read Hohmann's book to learn how you can play an effective role in protecting your backyard. --Former U.S. Representative Michele Bachmann The poison fruit of the Left's treasonous migrant policy has not yet fully become obvious, but it soon will. They are importing huge numbers of people who do not share American values and have no interest in adopting them. When we see an epidemic of jihad terror attacks, FGM, honor killing, and demands for Sharia accommodation in this country, you will know why if you read Leo Hohmann's essential book., *Stealth Invasion* tells the truth that the mainstream media is determined to cover up: that the Muslim migrants are not "refugees," but hostile invaders. --Pamela Geller, President, American Freedom Defense Initiative, author, *Stop the Islamization of America* The refugee influx is not a humanitarian crisis as it has been portrayed, but an opportunity for the Left to engage in social engineering on a massive scale, while flooding Western Europe and the U.S. with jihadis who easily infiltrate among peaceful refugees, just as the Islamic State has long threatened it would do. We are being lied to by the political and media elites about what is really going on, but here is the truth: in this shocking and sobering book, the peerless investigative journalist Leo Hohmann lays out the

facts with devastating clarity, documenting a betrayal so immense as to be unbelievable, were the information in this book not so ineluctably compelling. *Stealth Invasion* ought to be required reading for any politician who still cares about defending America and Judeo-Christian civilization; because of what is laid out in this book, it is rapidly becoming too late. --Robert Spencer, author of the New York Times Bestsellers *The Politically Incorrect Guide to Islam (and the Crusades)* and *The Truth About Muhammad*
