From Routledge : Striking a Balance: A Guide to Enhancing the Effectiveness of Non-Governmental Organisations in International Development before purchasing it in order to gage whether or not it would be worth my time, and all praised Striking a Balance: A Guide to Enhancing the Effectiveness of Non-Governmental Organisations in International Development:

1 of 1 people found the following review helpful. Very bad Kindle editionBy Katie AlheimI'm only reviewing the Kindle edition, which I rented for a course. This is a valuable and worthy book, but the Kindle transcription is horrible.

It's full of bizarre typos, missing or misplaced punctuation, and misspelled words that constantly interrupt one's reading and obscure the meaning of the text. Better to pay more and get the hard copy. The Kindle edition is not worth even the inexpensive rental fees. I usually love Kindle books, and was glad to be able to use it for textbooks. But (or the publisher - whomever is responsible) has done a real disservice to this book and its author. 3 of 4 people found the following review helpful. A Great Resource! By Zac Hubbell This is a FANTASTIC reference for those interested in NGO Management, or for those starting up their own NGOs. Fowler does an excellent job of going step-by-step through the process of organizational development in these complex organizations. 1 of 3 people found the following review helpful. A Great Resource! By Zac Hubbell This is a FANTASTIC reference for those interesting in NGO Management, or for those starting up their own NGOs. Fowler does an excellent job of going step-by-step through the process of organizational development in these complex organizations.

At a time of rapid global change, development NGOs are having to scale up their impact, diversify their activities, respond to long-term crises and improve their performance on all fronts. *Striking a Balance* offers both analysis and a practical guide to how NGDOs can fulfil these demanding expectations. Written for all those involved with NGDO work, the book describes the objectives of sustainable people-centred development and the process required to achieve it, focusing on the five factors which determine effectiveness: suitable organisational design; competent leadership and human resources; appropriate external relationships; mobilisation of high quality finance; and the measurement of performance coupled to 'learning for leverage'. In each are the book explains the capacities needed and how they can be assessed and improved. Effectiveness calls for NGDOs which retain their non-profit values, establish the right type of Professionalism, manage dilemmas and balance choices to continually reflect the priorities, rights and needs of those who give them legitimacy: people who are poor and marginalised. This book provides a reference of current and future practices which will help NGDOs to do so.

'An immensely useful "how to" tool for NGO leaders in development. One of the most powerful themes is the achievement potential of interaction between governments and NGOs. This book is an invaluable guide to both sides on how to achieve and what to expect from this bridging.' -- John D. Clark, Senior NGO Specialist, The World Bank
About the Author Alan Fowler has been working with NGDOs for over 20 years as a manager, consultant, donor, writer, researcher, and as a Visiting Fellow at the World Bank and the Society for Participatory Research in Asia. In 1991, he co-founded the International NGO Training and Research Centre (INTRAC).
