teaching, gender sociology. A compelling analysis of gender dynamics of the booming industry of men's beauty services. 0 of 0 people found the following review helpful. Ultimately boring. By James Harrison Focus too narrow on two salons, does not survey the changing freedom of men to wear hair longer, in tails, in buns, in curls. Ultimately boring. 0 of 2 people found the following review helpful. Three Stars By Cloris YyCI bought for my friend.

The twenty-first century has seen the emergence of a new style of man: the metrosexual. Overwhelmingly straight, white, and wealthy, these impeccably coiffed urban professionals spend big money on everything from facials to pedicures, all part of a multi-billion-dollar male grooming industry. Yet as this innovative study reveals, even as the industry encourages men to invest more in their appearance, it still relies on women to do much of the work.

"A deep examination of the rise of male beauty culture."
