Jok Madut Jok : Sudan: Race, Religion, and Violence (Short Histories) before purchasing it in order to gage whether or not it would be worth my time, and all praised Sudan: Race, Religion, and Violence (Short Histories):

Jok Madut Jok gives a detailed account of the politics and passions behind the conflict that has raged in Sudan for decades. I highly recommend this book as an introductory work that will tell you what has been happening there

and what is happening now. I found the first several chapters to be entirely readable - and while the latter chapters get a bit "academic" in tone, the book still delivers a powerful array of information in an account that will leave you feeling - well - challenged, learned, and concerned for the people of Sudan. 0 of 0 people found the following review helpful. Very excellent book with truthful story in 21 century slavery By Bol Bol Very excellent book with truthful story in 21 century slavery. This book contains precise information about the war in Sudan. It covers major problems led to the violent, shows genocide evident and gives much facts about real cause of wars between South Sudan and North Sudan. 0 of 0 people found the following review helpful. the pain of Sudan By Arturo del Swego A good detailed telling of the plight of Christians in Sudan. Tells of the bombings, the lies of the Muslim leaders and the camps.

Sudan is a country in turmoil, ravaged by civil war, plagued by roaming gangs of rebel and government militia, and is rarely out of the news. Despite government propaganda, tales of state-sponsored murder, genocide and humanitarian crises are rife, and there is a real need for a measured investigation which carefully examines the causes of the troubles. In this important book, Jok Madut Jok delves deep into Sudan's culture and past, isolating the factors that cause its fractured national identity. Highlighting the Arabization of the central government in the north and the imposition of this cultural identity upon Darfur and the Christian South, Jok analyses the vicious cycle of violence and goes on to ask what can be done to improve the plight of the Sudanese people in the future. Filled with sharp argument and heroic tales in the face of adversity, Sudan will appeal to everyone who wishes to gain a greater understanding of the current crises facing Sudan and its people.

"A powerful and exhaustively documented account of the suffering imposed on the people of Sudan by successive regimes in Khartoum, and by the rebel armies that have risen up to oppose them. Vividly illuminated by detailed political analysis, it should be read by all those concerned with the future of Sudan." -- John Ryle - writer, anthropologist and Chairman of the Rift Valley Institute "Jok Madut Jok, a Sudanese social scientist, uncovers Sudanese experiences of race, entwined as they are with attitudes towards religion, language and culture." -- Douglas H. Johnson - Editorial Director, James Currey Press and author of "The Root Causes of Sudan's Civil Wars" "Masterful and intense; passionately critical and solidly informed - Jok Madut Jok has done it again with his very current and poignant Sudan: Race, Religion and Violence." -- Richard Lobban - Professor and Chair of Anthropology, Rhode Island College, and Executive Director of the Sudan Studies Association "This is clearly a very personal account by JMJ and that is much of its strength. His inclusion of much material deriving from his direct contact with people in many parts of the country is a valuable and unique contribution to the literature on Sudan." -- Peter Woodward - Professor of Politics, University of Reading, and author of Sudan 1898-1989: The Unstable State "In a set of skillfully argued and well-researched chapters, the author examines the role of religion, race and resource wars." -- Choice (for Academic Libraries), Nov 2007 "Jok Madut Jok's book is a useful guide to the multiple forces, economic, religious and ethnic, facing each other in Sudan." -- Transnational Perspectives, March 2008 A powerful and exhaustively documented account of the suffering imposed on the people of Sudan by successive regimes in Khartoum, and by the rebel armies that have risen up to oppose them.
