**Chris Strodder : Swingin' Chicks of the 60's** before purchasing it in order to gage whether or not it would be worth my time, and all praised Swingin' Chicks of the 60's:

These Were The Days, My Friend.....By LynnLuv59I got this book over in the UK, and it cost quite a bit MORE than it does right now, at this time, 02/22/2013. I LOVE and ADORE this Book! Chris Strodder really did an amazing, amazing job of putting this book together, and making it so much fun to read, and see all the gorgeous pictures, this is such a wonderful "snapshot pic/book" of just THIS TIME, in our collective psyche's of just what, and WHO was around, in several differing entertainment venues, movies, music, Fashion Icons, just plain Any Female Icon that garnered attention. There ARE a lot of people whom one could argue should have been put into this nifty little book. Quite a few, to be exact. But when you see just WHO is in the book, you will be delightfully surprised, and the manner the way the books is set up, it is just a nice, short, and concise account of what each "Swingin' Chick" did, and just what she contributed to the times, and even into some our times now, as several of these "chicks" are STILL around, and can give their own accounts as to what was going on in the 60's, etc.This is NOT meant to be ANY kind of "in-depth analysis" of these women, it is more a quick, fun, and tasty bit of knowledge that is easy to read, fun to both read, and look at, and if it has the same effect that it had on me, with you, it will leave you smiling, and also having one whale of time just going from one Icon, of the 60's right into another. For such a "small-ish, but fact-filled book of that time, and these people", I don't think that it can be beat. I have already gifted two other people with this book as a present, and I probably will again, truth be told. If you are a

60's era-kid/adult, THIS fun book will be right up your alley. Give it a try at least, I don't think that you will be at all disappointed, especially with the cost NOW, of this book, which has long before been out-of-print, and VERY difficult to find. Remember THAT too, when you see this book come available again; after it once again, gets pulled out for it's once again, out-of-print period of years. ( I know, I actually WAITED ! )Lynnluv591 of 1 people found the following review helpful. Terrific for browsingBy Danton M.It's fun to read, with stories about these "chicks" I'd never heard.1 of 1 people found the following review helpful. More biographical than photographicBy Xan I."...this book offers photos, profiles, and little-known details of the lives of 101 defining divas of the decade."The word "photos" should probably be listed last as most of them are pretty small. I was hoping for a book with large detailed photos, but this has more text than photos. So if you're interested in more of a biographical book, then this is probably what you're looking for.

An affectionate tribute to the women who waged a cultural revolution, this book offers photos, profiles, and little-known details of the lives of 101 defining divas of the decade. Twiggy, Annette Funicello, Ann-Margret, Diana Rigg, Patty Duke, Janis Joplin, Mia Farrow, Marianne Faithfull, Cher, Jane Fonda, Edie Sedgwick, plus ninety more! Includes more than 300 photos.

From the AuthorFor some reason .com lists me (the author, Chris Strodder) as having written the Foreword to this book. I didn't write the Foreword. Angie Dickinson, the famous actress, wrote the Foreword. I wrote the book. For a long time I've tried to correct this through .com, but for some reason they're unable to fix it, so I'm just adding this note as clarification.
