Ken Hyland : Teaching and Researching Writing: Third Edition (Applied Linguistics in Action) before purchasing it in order to gage whether or not it would be worth my time, and all praised Teaching and Researching Writing: Third Edition (Applied Linguistics in Action):

This third edition of *Teaching and Researching Writing* continues to build upon the previous editions work of providing educators and practitioners in applied linguistics with a clearly written and complete guide to writing research and teaching. The text explores both theoretical and conceptual questions, grapples with key issues in the field today, and demonstrates the dynamic relationship between research and teaching methods and practice. This revised third edition has been reorganized to incorporate new topics, including discussions of technology, identity, and error correction, as well as new chapters to address the innovative directions the field has taken since the previous editions publication. Boxes throughout, including "Concepts" and "Quotes", help to both reinforce readers understanding of the topics covered by highlighting key ideas and figures in the field, while the updated glossary and resource sections allow readers to further investigate areas of interest. This updated edition of *Teaching and Researching Writing* is the ideal resource for language teachers, practitioners, and researchers to better understand and apply writing research theories, methods, and practices.

About the Author Ken Hyland is Chair Professor of Applied Linguistics and Director of the Centre for Applied English Studies at the University of Hong Kong.
