Carl A. Harvey II : The 21st Century Elementary Library Media Program before purchasing it in order to gage whether or not it would be worth my time, and all praised The 21st Century Elementary Library Media Program:

0 of 0 people found the following review helpful. The one drawback was that a lot of the sites/links it recommended for study were too old and didn't workBy Marcia SchatzIt worked very well for the most part. It was used in my class because of the cost of the newer version. The one drawback was that a lot of the sites/links it recommended for study were too old and didn't work. Our professor supplied us with more current links and articles in those cases.9 of 9 people found the following review helpful. Superlative Information!By Library LadyThis book is full of wonderful suggestions on diverse components of the school library program. I learned so much! It was great to have samples of so many items such as newsletters, procedural documents and collaboration logs. The inclusion of lists of additional resources for things such as podcasting, wikis, and blogs was extremely helpful.

How do you accomplish a technology transformation at a time with limited budgets? What's the proper place for Web-placed social networking in the school library? What are the best practices for working together with students, parents, and educators? The 21st Century Elementary Library Media Program is an invaluable resource for answers to these and many more questions, as it brings together in one volume the advice and insights you need to bring your library into the new century. Compact yet remarkably comprehensive, The 21st Century Elementary Library Media Program covers all the major aspects of school library services, from administration to instruction. Award-winning library media specialist Carl Harvey provides tips and techniques, forms and templates, and advice on everything from staffing and budgeting to collaborating with teachers and other libraries to Web 2.0 and other new computer tools to building collections and devising special programs. Whether you are just getting started, or a library veteran looking for program renewal, this book belongs on your shelf.

"This is an accessible and engaging book that provides ideas and strategies that can aid in the development of the elementary library media program. . . . Those who are new to the profession will find this book very useful. Veterans will also glean ways to renew their programs in this time of fast-paced change. Recommended." - Library Media Connection "The 21st Century Elementary Library Media Program just arrived on my desk, and I want to sing its praises. To start, the book is exceptionally well-organized. The author starts with a historical perspective, and then moves into chapters on People (principals, teachers, school boards, networks, advisory committees, etc.), Communication (face-to-face, web, video, etc.), Curriculum and Instruction, Programming, Information and Technology (automation systems, web 2.0 applications, policies and procedures, etc.), Library Administration (policies and procedures, facilities, planning, data collection, etc.), Budget, Collections, Advocacy, and Leadership. And the author has provided strong content in each of these areas to help new school librarians better see their role and to reenergize established school librarians. Well done and highly recommended to all." (Marilyn Irwin, PhD, Executive Associate Dean and Director of School Library Media Education, School of Library and Information Science, Indiana University) About the Author Carl A. Harvey II is an instructor of school librarianship at Longwood University in Farmville, VA.
