From Ballantine Books : The Ageless Spirit before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Ageless Spirit:

Is aging a fact of life? Or is it the fulfillment of life? Is aging a curse? Or is it a blessing? In her celebrated National Public Radio series "I'm Too Busy to Talk Now," Connie Goldman explored these questions with scores of prominent creative people over seventy. Now, in *The Ageless Spirit*, Phillip L. Berman, editor of the highly praised *The Courage to Grow Old*, has worked with Goldman to fashion the best of these interviews into brilliant and inspiring essays. The result is a treasury of humor and profundity, dazzling wit and hard-earned wisdom, by some of the most fascinating and gifted men and women of our times.

"The stories contained in this book help dramatize the true picture of what healthy aging can be. The people described within clearly show that age by itself is no barrier to creativity and productivity. They also provide some very helpful insight for all of us who follow them on the road of life." Horace B. Deets, Executive Director AARP
