**Jennie Keith, Christine L. Fry, Anthony P. Glascock, Charlotte Ikels, Jeanette Dickerson-Putman, Henry C. Harpending, Patricia Draper : The Aging Experience: Diversity and Commonality Across Cultures** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Aging Experience: Diversity and Commonality Across Cultures:

In an attempt to understand the meaning of ageing and the treatment of the aged in different cultures, seven anthropologists have made studies of 10 communities on four continents - the results of which are presented in this book. The authors use both qualitative and statistical data to examine such issues as: health and well-being, perceptions of the life course, material resources, and functionality of elders. A unique resource, The Aging Experience provides a detailed comparative analysis of ageing worldwide.
