From Brand: Cambridge University Press : The Cambridge Handbook of Violent Behavior and Aggression (Cambridge Handbooks in Psychology) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Cambridge Handbook of Violent Behavior and Aggression (Cambridge Handbooks in Psychology):

1 of 9 people found the following review helpful. Cambridge Handbook on ViolenceBy Leonard BerkowitzMost of

the chapters are comprehensive and useful, although a few are too narrow and even scanty

Violence is a complex behavior that manifests itself every day in acts of terrorism, through exposure in the media, and in our families and neighborhoods. Understanding the origins of violent behavior and aggression, its developmental course, and its impact on individuals and societies will allow us to develop appropriate preventative interventions and policies that will affect us in our everyday lives. This handbook is unique in its depth of coverage of violence and aggressive behavior, its multidisciplinary focus, and its presentation of cutting-edge research by the leading authors in the field.

"This handbook provides a comprehensive, multidisciplinary examination of current research and thinking about the issue of violence. It examines theoretical, policy, and research issues and provides an overview of aggressive and violent behavior..." ---Family Therapy [Vol 36, Number 2]About the AuthorDr Flannery is currently Professor of Justice Studies and Director of the Institute for the Study and Prevention of Violence at Kent State University. He was named a University Distinguished Scholar at KSU in 2006. He is a licensed clinical psychologist and an Associate Professor of Pediatrics at Case Western Reserve University and University Hospitals of Cleveland. He is co-editor of *Youth Violence: Prevention, Intervention, and Social Policy* (1999) and author of *Violence and Mental Health in Every Day Life: Prevention and Intervention for Children and Adolescents* (2006). His primary areas of research are in youth violence prevention, the link between violence and mental health, and program evaluation. He received his PhD in 1991 in Clinical-Child Psychology from the Ohio State University. His previous appointments were as Assistant Professor of Family Studies at the University of Arizona, and as Associate Professor of Child Psychiatry at Case Western. He has published over 100 empirical articles and book chapters on youth violence prevention, delinquency, and parent-adolescent relations. He has also generated over \$15 million in external support for his research. He has served as a consultant to various local and national organizations including the US Departments of Justice and Education, the Centers for Disease Control and Prevention, the National Crime Prevention Council, and the National Resource Center for Safe Schools.
