From Routledge : The Challenges for Russia's Politicized Economic System (Routledge Contemporary Russia and Eastern Europe Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Challenges for Russia's Politicized Economic System (Routledge Contemporary Russia and Eastern

Europe Series):

During the early 2000s the market liberalization reforms to the Russian economy, begun in the 1990s, were consolidated. But since the mid 2000s economic policy has moved into a new phase, characterized by more state intervention with less efficiency and more structural problems. Corruption, weak competitiveness, heavy dependency on energy exports, an unbalanced labour market, and unequal regional development are trends that have arisen and which, this book argues, will worsen unless the government changes direction. The book provides an in-depth analysis of the current Russian economic system, highlighting especially structural and institutional defects, and areas where political considerations are causing distortions, and puts forward proposals on how the present situation could be remedied.

About the Author Susanne Oxenstierna is a Doctor of Economics and Deputy Research Director at the Swedish Defence Research Agency, FOI.
