William G. Bowen, Thomas I. Nygren, Sarah E. Turner, Elizabeth A. Duffy : The Charitable Nonprofits: An Analysis of Institutional Dynamics and Characteristics (Jossey-Bass Nonprofit Sector) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Charitable Nonprofits: An Analysis of Institutional Dynamics and Characteristics (Jossey-Bass Nonprofit Sector):

Describes the world of charitable nonprofits; gives an overview of the trends in institutional populations; and examines the complex relationship of such factors as institutional type, age, size, and sources of revenue.

"Bowen et al. have made a major contribution in this volume which should inspire other researchers to enter the quagmire of research on nonprofit organizations. This study is a great gift to the future of research on this sector."
Virginia A. Hodgkinson, vice president, research, INDEPENDENT SECTOR
From the Inside Flap
The Charitable Nonprofits is a comprehensive study--spanning more than two decades--of the nonprofit sector. Using an institutional perspective, this report describes the world of charitable nonprofits as they exist today; gives an overview of the trends in institutional populations by charting the establishment of new entities and the exit rates among nonprofits since the mid 1960s; and examines the complex relationship of such factors as institutional type, age, size, and access to sources of revenue to reveal characteristic revenue profiles.
