**Phillip V. Snyder : The Christmas Tree Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Christmas Tree Book:

1 of 1 people found the following review helpful. Exactly what I wanted!By LaurieThis is a terrific book full of interesting tidbits on the history of Christmas Ornaments and things on the Holiday itself.Plus, I confess, the author is the late father of my sister-in-law. I didn't know such a great book existed and I ordered it after looking through the pictures and skimming some of the text. Definitely one of those books you want a hard copy of. This a book to curl up with, look through, and share year after year.1 of 1 people found the following review helpful. Very Nice BookBy LouieThis book pictures are done in black and white. There are a few pages done in color, they are of ornaments. It has some very interesting pictures of how the old trees decorated.0 of 0 people found the following review helpful. Five StarsBy ruth m.This is an absolutely marvelous book for me,who always has Christmas in my head and heart.

At the beginning of this century a family of Swedes settled in northern Illinois among Germans. They had never had the Christmas tree tradition and they didn't have much money for ornaments. They hung their silver knives and forks and spoons on the tree.
