But this is a great volume, in part because bilingual, in part because some of the translations are terrific. The most important poet Spain produced in the 20th century, probably ever, but I'll leave that argument to someone else, I can't imagine why any non-Spanish speaking English speaking reader would not own this.0 of 0 people found the following review helpful. Federico Garcia Lorca is the greatest poet of twentieth-century Spain and one of the world's most influential modernist writers. Christopher Maurer, a leading Garcia Lorca scholar and editor, has substantially revised FSG's earlier edition of the collected poems of this charismatic and complicated figure, who-as Maurer says in his illuminating introduction-"spoke unforgettably of all that most interests us: the otherness of nature, the demons of personal identity and artistic creation, sex, childhood, and death."
