Robert Garland : The Greek Way of Death before purchasing it in order to gage whether or not it would be worth my time, and all praised The Greek Way of Death:

0 of 0 people found the following review helpful. Great purchase.By LilyExcellent book.I totally recommend it.8 of 9 people found the following review helpful. An easy to read Classical Study.By Jan DierckxSurveying funerary rites and attitudes toward death from the time of Homer to the fourth century BC, Robert Garland seeks to show what the ordinary Greek felt about death and the dead. The second edition features a substantial new prefatory essay in which

Garland addresses recent questions and debates about death and the early Greeks. The book also includes an updated Supplementary Bibliography. There are seven chapters. 1. The Power and Status of the Dead. 2. Dying. 3. The Funeral. 4. Between Worlds. 5. Life in Hades. 6. The Special Dead. 7. Visiting the Tomb. 6 of 9 people found the following review helpful. Easy to read and very informative. By Customer. Some of these books on myth that are written by professors can be difficult to read. This book is not like that. This book is easy to read and understand. The information in it is very good. There is much about how the ancients thought about death that we just don't know. This book will tell you the little we do know about how the Greeks thought about death. No definite answers, but very interesting.

Surveying funerary rites and attitudes toward death from the time of Homer to the fourth century B.C., Robert Garland seeks to show what the ordinary Greek felt about death and the dead. The Second Edition features a substantial new prefatory essay in which Garland addresses recent questions and debates about death and the early Greeks. The book also includes an updated Supplementary Bibliography. Praise for the first edition: "This [volume] contains a rich and remarkably complete collection of the abundant but scattered literary, artistic, and archaeological evidence on death in the ancient world as well as an extensive bibliography on the subject. Robert Garland conceives of death as a process, a rite of passage, a mutual but changing relationship between the deceased and [his or her] survivors. . . . A most useful collection of evidence, sensibly organized (no small feat) and lucidly presented. . . . A valuable source on the Greeks and on the always-lively subject of death." *American Historical Review* "Much can be learned from this engaging survey of popular attitudes toward death, the dying, and the dead in Greece down to the end of the Classical period. . . . Appealing to scholars and the general audience." *Religious Studies Review*
