The Migration Reader introduces the key articles and documents that analyze the complex phenomenon of

transnational migration and the challenges it poses for contemporary societies, states, and international relations. Enhanced by the editors' commentary, the selections identify concepts and trends in international migration, review the historical origins of contemporary migration and refugee regimes, consider immigration politics and policies, and explore migration in a global context. The result is an intellectual window through which students can better understand the changes occurring in the international environment and in state-society relations within both affluent and less-developed countries.

"This intelligent and comprehensive collection fills a conspicuous void, addressing the major issues raised by international migration. It will work well in both undergraduate and graduate courses." - Gary P. Freeman, University of Texas at Austin

About the Author Anthony M. Messina is associate professor of political science at the University of Notre Dame. His most recent book is *The Logic and Politics of Postwar Migration to Western Europe*. Gallya Lahav is assistant professor of political science at the State University of New York at Stony Brook. She is author of *Immigration and Politics in the New Europe: Reinventing Borders*.
