**Jonathan Michie, Cary Cooper : Why the Social Sciences Matter** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Why the Social Sciences Matter:

Published with the support of the Academy for Social Sciences, this volume provides an illuminating look at topics of concern to everyone at the beginning of the twenty-first century. Leading social scientists tackle complex questions

such as immigration, unemployment, climate change, war, banks in trouble, and an ageing population.

"This book powerfully demonstrates that if some of the planet's most urgent problems are to be solved, then the social sciences are not just necessary but are in fact indispensable. Humanity today needs high-quality social science more than ever - this book brilliantly shows why and how this is so." - David Inglis, University of Exeter, UK "Eminent social scientists Professors Jonathan Michie and Cary Cooper have drawn together a distinguished group of world experts who document the enormous contributions that the social sciences can offer us all for a healthy, sustainable and peaceful future." - Julian Barling, Queen's School of Business, Canada "While numbers are at the center of great natural science that can launch rockets, human hearts are the pulse of great social science. Private trouble and personal suffering spill over into the public domain, addressed in the collective ills of this volume. Our great hope is that we can solve these problems that we have created. The solutions lie within this volume and the social sciences." - James Campbell Quick, University of Texas at Arlington, US "This excellent and thought-provoking book deserves to be widely read by policy-makers as well as by students and others who think about our futures. The book makes great contributions to society." - Greg Bamber, Monash University, Australia

About the Author  
Chloe Campbell, University College London, UK  
Cary L Cooper, Lancaster University, UK  
Michael A Crang, Durham University, UK  
Stuart Croft, University of Warwick, UK  
Pasco Fearon, University College London, UK  
Robert J Gatchel, University of Texas at Arlington, US  
Nicky Gregson, Durham University, UK  
Oz Hassan, University of Warwick, UK  
Rod Hick, Cardiff University, UK  
Mike Hough, Birkbeck, University of London, UK  
Mavis Maclean, University of Oxford, UK  
Cathy McIlwaine, Queen Mary, University of London, UK
