A must have book if you like Williamsburg By DB Having visited Williamsburg many times when we lived in Virginia 30 years - we visited at least 8 times a year and sometimes more, we fell in love with it. Have moved to NE to be with family - so now I have to resort to memories and their fine books. This book is very well written with the most beautiful photos. There are also some instructions on how to create these decorations. If you are interested in history, and Williamsburg, this book is a must. It gives one the inside look of history and their decorations. 2 of 2 people found the following review helpful. Beautiful book! By jm4design@aol.com Lovely pictures. Great decorating ideas. A nostalgic celebration of the colonial Christmas shows the many faces of the season in Williamsburg over the last three hundred years, focusing on the wreaths, swags, and other adornments used to decorate doors, windows, staircases, and tabletops.
